

COHORT DASHBOARD · GACA-ALIGNED · BILINGUAL EN/AR

# One dashboard for the whole school.

Run your cohorts. Watch every cadet's progress against the GACA license minimums. Export audit-ready reports the night before the inspection. Put Captain Adel in front of every student — bilingual, GACAR-cited, in their language.

## • WHAT EVERY INSTRUCTOR GETS

- ✓ **Live cohort dashboard** — every cadet's hours, PIC, XC, IFR, last flight, sortable, searchable.
- ✓ **Stale-cadet alerts** — anyone idle for 14+ days surfaces in gold. Catch the falling student before the stage check.
- ✓ **One-click GACA-audit CSV** — formatted for the inspector. No more Saturday-night Excel rebuilds.
- ✓ **Mock checkride simulator** — Captain Adel as a DPE; 24 oral scenarios with model answers and a debrief.

## • WHAT EVERY CADET GETS

- ✓ **Unlimited Captain Adel** — instant answers with GACAR citations, 5 SAR worth of OpenAI bills per cadet, paid by us.
- ✓ **Adaptive Exam Coach** — finds weak topics, builds a focused-practice queue, drives the pass rate.
- ✓ **Personal logbook** — 30-second flight entry, photos, currency tracker, .ics calendar export of medical / BFR / IFR expirations.
- ✓ **Photo decode** — snap a printed METAR / chart / handout; the app extracts the text and asks Adel to explain it.

## ● TODAY VS. FLY GACA SCHOOLS

OPERATION	EXCEL + WHATSAPP (TODAY)	FLY GACA SCHOOLS
Find every cadet's current hours	20+ minutes, three spreadsheets	One screen, sorted by track
Flag a cadet who hasn't flown in 14 days	Discovered after the failed stage check	Surfaces automatically in gold
Build the GACA audit report	2 nights of overtime per audit	Single CSV download, formatted
Answer a cadet's GACAR Part 91 question	Duty instructor's WhatsApp at 23:00	Captain Adel · cited · 4 seconds
Onboarding a new instructor	Forward the master sheet, hope	Add their email · 30-min walkthrough

## ● ONBOARDING · TWO BUSINESS DAYS

<p><b>DAY 0</b></p> <p><b>30-min demo</b></p> <p>Director + chief instructor</p>	<p><b>DAY 1</b></p> <p><b>School provisioned</b></p> <p>We set up cohorts, branding, instructor seats</p>	<p><b>DAY 2</b></p> <p><b>Instructor walkthrough</b></p> <p>Live session · cohort codes handed over</p>	<p><b>DAY 3</b></p> <p><b>Cadets self-join</b></p> <p>They paste the cohort code, dashboard goes live</p>
--	---	---	---

*"We replaced two Excel files and a WhatsApp group with one dashboard. The first audit week, our chief instructor's overtime dropped to zero." — what your director will say after the second week.*

## ● FIVE ANSWERS WE GIVE EVERY WEEK

### Where is the data stored?

Firebase me-central2 (Dammam). PDPL-compliant by design. Sub-processor list in our DPA.

### Multiple cohorts at once (PPL, CPL, ATPL)?

Yes — up to three concurrent cohorts on the standard plan; each cadet counts once.

### What does the cadet see?

The full Fly GACA app: library, Adel, exam prep, logbook, currency. They never see other cadets — privacy by default.

### What if we cancel?

Monthly: prorated to the day. Annual: full refund within 14 days. Cadet logbooks export to CSV — they keep their data.

### Can we white-label it?

Annual prepay unlocks logo + accent colour on the dashboard and on every CSV export. Custom subdomain on request.
